

Holy Communion Christian Academy

Holy Communion Christian Academy is the church's parochial, not-for-profit preschool for infants through kindergarten offering an individualized and developmentally appropriate curriculum with highly qualified teachers. The school offers a low teacher-student ratio in large classrooms. The school's mission is to provide a Christian based, nurturing early childhood development program for pre-school and kindergarten students in a safe environment with the goal of creating a foundation for the child's future education and success in life. The school strives to instill in each child a strong sense of personal identity, and awareness that each is a child of God. The school will help each child develop self-mastery, high moral character, an understanding of duty to God and neighbor, and leadership skills within a framework of academic excellence.
